

CAREER OPPORTUNITY

To support our growth strategy, we are looking for dynamic, results-oriented professional with strong credentials and relevant work experience to fill the following position:

MANAGER – CORE BANKING SYSTEMS & CHANNELS

Reporting to the Chief Digital & IT Officer, the incumbent will be responsible for developing applications in or to interact with the Bank's T24 Temenos applications by providing timely and quality solutions for all aspects of T24 Core Banking Software (CBS) and integrations into the CBS. He/she will also maintain operational efficiency for 24/7 service availability, uptime monitoring and first level support.

Main Duties:

- Ensure service availability on CBS and all integrating systems such as alternate channels.
- Undertake the administration and maintenance of CBS and integrated channels.
- Ensure accuracy, accountability, and delivery of all CBS changes, updates, upgrades, and patches.
- Offer technical assistance and guidance in projects, upgrades, customizations, and digital business initiatives.
- Oversee the system integration into the core banking system and day to day operational running of integrated channels.
- Prepare, deploy and maintain various T24 environments.
- Analyze CBS problems and implement innovative fixes, monitoring, tuning and performance optimization.
- To develop new processes and modify existing T24 functions to meet business requirements.
- To develop applications on T24 Core Banking system that interface with other applications.
- Use of jbase/java to develop or to interface with T24 applications.
- Recommend improvements to existing T24 technical and business processes to meet the Bank's requirements.
- Work closely with IT Security to ensure that applications are well secured.
- Work closely with testing/project teams to ensure solutions developed are defect free and meet business requirements.
- Ensure the integrity of T24 environments.
- Support a 24/7 T24 environment and resolves business and IT incidents with innovative solutions to ensure clients receive the highest level of service.
- Identify emerging user needs and plan for new systems features or changes to meet business requirements.
- Evaluate CBS capabilities and technologies for their potential application to business processes.

Minimum qualification and experience required:

- A bachelor's degree in information technology or computer science is required.
- At least five (5) years' experience in core banking applications.
- Demonstrated in depth Java development experience.
- Demonstrated in depth T24/JBASE development experience.
- Certification in programming.
- Demonstrated experience in integration and middleware systems.
- Team player and attention to detail.
- Expertise in enterprise server operating systems and applications such as: Linux, Redhat, Oracle, DB2, MSSQL, Web Services, Java, Python, JBASIC

If you believe that you have the required qualifications and experience to fill in the above position, kindly send your detailed resume together with a cover letter clearly indicating current remuneration to reach the undersigned by April 26, 2024:
